

7:25 AM	Welcome, Introduction and Course Objectives <i>William O. Suddath, MD</i>	9:30 AM	When and How to Use a Stent: Coronary vs Peripheral Success and Complications <i>Robert Dieter, MD, RVT</i>
Basic Catheter Based Percutaneous Angiography & Coronary Intervention		9:45 AM	Discussion with Audience / Questions & Answers <i>Moderator: W. O. Suddath</i> <i>Panelists: B. G. Bass, M. J. Cowley, D. A. Cox, R. Dieter, R. A. Gallino, R. R Heuser, J. J. Ricotta</i>
<i>Moderators: John J. Ricotta, MD and William O. Suddath, MD</i>			
7:30 AM	Orientation: The Cath Lab Room and Equipment <i>Richard R Heuser, MD</i>	9:55 AM	Break
7:45 AM	Fluoroscopy and Radiation Safety <i>Billy G. Bass, PhD</i>	Session II	
8:00 AM	Vascular Access and Closure Devices: Alternatives and Complications <i>David A. Cox, MD</i>	<i>Moderators: Robert A. Lager, MD and Brijeshwar S. Maini, MD</i>	
8:15 AM	Tools for Coronary Intervention: Guidewires, Contrast Agents and Angiographic Catheters: Shapes, Sizes, Balloons and Stents <i>William O. Suddath, MD</i>	10:10 AM	Coronary Angioplasty: Step-by-Step with Edited Case Videos <i>William O. Suddath, MD</i>
8:45 AM	Tools for Endovascular Intervention: Guidewires, Contrast Agents and Angiographic Catheters: Shapes, Sizes, Balloons and Stents <i>Robert A. Gallino, MD</i>	10:25 AM	SFA Angioplasty: Techniques, Devices, and Outcomes <i>Robert Dieter, MD, RVT</i>
9:00 AM	Balloon Angioplasty Core Concepts: Sizing, Compliance, and Mechanism of Action <i>Michael J. Cowley, MD</i>	10:40 AM	Carotid Stenting, Distal Protection and Catheter Techniques <i>Mark H. Wholey, MD</i>
9:15 AM	Bare-Metal and Drug-Eluting Stents: Construction, Components, and Mechanisms of Action <i>David A. Cox, MD</i>	10:55 AM	The Basics of Percutaneous Intervention of Aortic Grafts <i>Brijeshwar S. Maini, MD</i>
		11:10 AM	Renal Artery Stenting <i>Nelson L. Bernardo, MD</i>
		11:25 AM	Antiplatelet and Antithrombotic Drugs used in the Cath Lab: How to Prevent Thrombosis <i>Steven V. Manoukian, MD</i>
		11:40 AM	Distal Protection Devices <i>David A. Cox, MD</i>

11:55 AM	Discussion with Audience / Questions & Answers <i>Moderators: R. A. Lager, B. S. Maini</i> <i>Panelists: N. L. Bernardo, D. A. Cox, R. Dieter, S. V. Manoukian, J. J. Ricotta, W. O. Suddath</i>	Balloon-Expandable Transcatheter Aortic Valve <i>Moderator: Raoul Bonan, MD</i>
12:10 PM	Hands-On Device Stations: Guidewires and Catheters, Balloons and Stents, Model for Selective Engagement, Wire Exchanges, and Closure Devices	2:15 PM The Balloon-Expandable Transcatheter Aortic Valve Device Design: Current and Future Generations <i>Larry L. Wood</i>
12:30 PM	Lunch & Visit the Exhibits	2:30 PM Largest Single-Center Experience with the Balloon-Expandable Transcatheter Aortic Valve <i>Augusto D. Pichard, MD</i>
1:00 PM	Keynote Address: The Cardiac Surgeon as an Interventionalist <i>Mark H. Wholey, MD</i>	2:45 PM The US Transapical AVR Experience: Techniques, Challenges & Outcomes <i>Jodi Akin</i>
	Transcatheter Aortic Valve Replacement: Overview, Concepts and Devices <i>Moderator: Raoul Bonan, MD</i>	Self Expanding Transcatheter AVR Device <i>Moderator: Raoul Bonan, MD</i>
1:30 PM	Patient Eligibility and the Transcatheter Aortic Valve Procedure <i>Augusto D. Pichard, MD</i>	3:00 PM Self Expanding Transcatheter AVR Device Design: Current and Future Generations <i>Carlos E. Ruiz, MD</i>
1:45 PM	The Surgeon as “Gatekeeper”: Which Patients are Optimal Candidates for Transcatheter AVR Clinical Trials? <i>TBA</i>	3:15 PM Clinical Results, Complications and Outcomes of the ReValving Trial <i>Raoul Bonan, MD</i>
2:00 PM	The Spectrum of Peripheral Vascular Complications from Percutaneous Transcatheter Valve Procedures: Prevention and Management <i>William A. Gray, MD</i>	3:30 PM Panel Discussion / Q&A <i>Moderator: A. D. Pichard</i> <i>Panelists: R. Bonan, W. A. Gray, L. L. Wood</i>
		3:45 PM The Percutaneous Approach to Structural Heart Disease: What the Surgeon Needs to Know <i>Horst Sievert, MD</i>
		4:00 PM Adjourn
