

8:00 AM	Welcome and Introductions to the Peripheral Arterial Disease (PAD) Day <i>Gary M. Ansel, MD</i>	11:15 AM	Common Femoral Artery Disease: Still a Surgical Domain? <i>Rajesh M. Dave, MD</i>
8:10 AM	PAD: Worth the Effort to Diagnose and Treat? <i>Nelson L. Bernardo, MD</i>	11:30 AM	Inflow Surgery: Is This a Dying Therapy? <i>Richard F. Neville, MD</i>
8:20 AM	PAD: Varying Clinical Presentations and Risks: Claudication vs Critical Limb Ischemia <i>Michael R. Jaff, DO</i>	11:40 AM	Complications of Inflow Endovascular Therapy: Recognition and Management <i>Timothy M. Sullivan, MD</i>
8:30 AM	PAD: Current Diagnostic Strategies: Vascular Laboratory and Axial Imaging <i>John H. Rundback, MD</i>	12:00 PM	Lunch & Visit the Exhibits
8:45 AM	PAD: The Optimal Angiographic Techniques <i>John R. Laird, Jr., MD</i>	1:00 PM	Management of Acute Arterial Thromboembolism: Surgical and Endovascular Strategies <i>Gary M. Ansel, MD</i>
9:00 AM	<b>Live Case Demonstrations from University of Leipzig Heart Center, Leipzig, Germany</b> <i>Live Case Operator: Dierk Scheinert, MD</i>  <i>Live Case Moderators: G. M. Ansel, H. D. Aronow, R. M. Dave, J. R. Laird, Jr., J. H. Rundback</i>	1:15 PM	Femoropopliteal Bypass Surgery: Where is this Still the First Line Therapy in 2009? <i>Nelson L. Bernardo, MD</i>
10:00 AM	Break	1:30 PM	Technical Intensive 1: Nitinol Stents for SFA/Popliteal Disease <i>Krishna J. Rocha-Singh, MD</i>
10:30 AM	The Modern Intervention Suite: What Must You Stock? <i>Tony S. Das, MD</i>	1:45 PM	Technical Intensive 2: Atherectomy for SFA/Popliteal Disease <i>Gary M. Ansel, MD</i>
10:45 AM	Infrarenal Aortic Disease: Methods of Endovascular Therapy <i>Richard R Heuser, MD</i>	2:00 PM	<b>Live Case Demonstrations from Washington Hospital Center</b> <i>Live Case Operators: Nelson L. Bernardo, MD Robert A. Gallino, MD</i>  <i>Live Case Moderators: J. D. Abbott, G. M. Ansel, R. F. Neville, K. J. Rocha-Singh, K. Rosenfield, D. P. Slovut</i>
11:00 AM	Aortoiliac Stenotic Disease: Technical Tips and Optimal Devices <i>Robert A. Gallino, MD</i>	3:00 PM	Break

3:15 PM	Technical Intensive 3: Covered Stents for SFA/ Popliteal Disease <i>Gary M. Ansel, MD</i>	4:15 PM	Technical Intensive 5: Techniques and Modern Strategies for Infrapopliteal Intervention <i>Kenneth Rosenfield, MD</i>
3:30 PM	Technical Intensive 4: Cryoplasty and Cutting Balloons for SFA/Popliteal Disease <i>David Paul Slovut, MD, PhD</i>	4:30 PM	Panel Discussion / Questions & Answers <i>Moderator: G. M. Ansel</i> <i>Panelists: N. L. Bernardo, M. R. Jaff,</i> <i>K. J. Rocha-Singh, D. P. Slovut, M. A. Turco,</i> <i>R. F. Neville</i>
3:45 PM	Access Site Closure Devices for Peripheral Interventions: Should This Be Done More, or Not At All? <i>Mark A. Turco, MD</i>	5:00 PM	Adjourn
4:00 PM	Infrapopliteal Endovascular Interventions: What is the Modern Data? <i>John H. Rundback, MD</i>
